ABDULLELAH MOHAMMED MOQBAIL

Information Technology Student | Software Engineer

Saudi Arabia | +966 54 685 0833 | abdulelah.moqbill@gmail.com

LinkedIn: linkedin.com/in/abdulelah-moqbil | GitHub: github.com/abmoqbil | Portfolio: meqbal73.github.io/AQ

PROFESSIONAL SUMMARY

Information Technology student with a GPA of 4.54/5.00 and a strong foundation in software engineering, backend development, and database design. Experienced in developing software applications using Java, Spring Boot, React.js, MySQL, REST APIs, and JUnit through academic projects and practical training. Passionate about building reliable software solutions, solving real-world problems, and continuously learning modern technologies while contributing effectively within collaborative teams.

TECHNICAL SKILLS

Programming: Java, Python, SQL, JavaScript

Frontend: React.js, HTML5, CSS3

Backend: Spring Boot, REST APIs

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, Docker, IntelliJ IDEA, JUnit, Figma

Concepts: Database Design, Object-Oriented Programming (OOP), IT Troubleshooting

Soft Skills: Problem Solving, Teamwork, Communication, Time Management, Adaptability, Working Under Pressure

PROFESSIONAL EXPERIENCE

Logistics & Operations Associate | MARN Platform (May 2025 – Present)

- Process shipments using warehouse management systems.
- Utilize barcode scanners and smart devices to sort, track, and process products efficiently.
- Apply 5S workplace organization methodology to maintain a safe and productive work environment.
- Manage packaging, loading, and unloading operations while maintaining quality standards.
- Awarded a Certificate of Excellence for outstanding performance.

Event Organizer & Sales Marketer | Over Dose Coffee (Oct 2023)

- Managed product marketing and merchandise organization.
- Assisted customers and provided excellent customer service.
- Collaborated with team members to ensure successful event operations.

Event Organizer & Security Guard | SELLA (Mar 2024)

- Coordinated crowd management and ensured visitor safety.
- Maintained a secure environment during high-volume events.
- Demonstrated strong communication and problem-solving skills.

PROJECTS

CarHelper

GitHub: github.com/cpit252-spring-26-IT1/CarHelper

Technologies: Java, Spring Boot, React.js, MySQL, REST APIs, HTML, CSS, JavaScript, JUnit

- Developed an AI-powered web application for diagnosing vehicle dashboard warning lights using image recognition.
- Implemented features for repair cost estimation and vehicle resale valuation tailored to the Saudi market.
- Contributed to frontend development using React.js and integrated backend REST APIs.
- Implemented AI package integration, API adapter components, and unit testing using JUnit.
- Collaborated with an Agile development team using Git and GitHub.

Event Management System (EMS)

GitHub: github.com/Ahmed-Alsefari/Event-Management-System-EMS-

Technologies: Java, PostgreSQL, Docker, MVC Architecture, RBAC, Email/SMS Services, Git, GitHub

- Developed a web-based event management system for organizing and managing events.
- Implemented CRUD operations and database functionality.
- Built responsive user interfaces and collaborated using GitHub.
- Applied software engineering best practices throughout the development process.

Multimedia Studio

GitHub: github.com/abmoqbil/MultimediaStudio-Cpit380-AbdulelahMoqbil

Technologies: Python, Tkinter, ttk, JES4PY, Pygame, Pillow, OS, Git, GitHub

- Developed a multimedia application using Object-Oriented Programming principles.
- Designed an interactive user interface with multimedia features.
- Improved usability, functionality, and software quality through testing and debugging.

EDUCATION

Bachelor of Information Technology
King Abdulaziz University (2022 – Present)
GPA: 4.54 / 5.00

CERTIFICATIONS
